

Artella's Blog Customization and Design Webinar

Follow-Up Notes

View the recording of the Webinar (audio and video) at:
<http://artellaland.com/BlogWebinar.htm>
(Please note – it will take several minutes to upload)

Here are some of the templates that have good flexibility in designs:

1. Paper Clip

Examples:

http://artellacafe.com/blogs/marneys_musings/default.aspx

http://artellacafe.com/blogs/artella_news/default.aspx

<http://artellacafe.com/blogs/outspoken/default.aspx>

Features:

- Can change background to any image or color. The background then appears on either side of the center.

- Can upload a header image to top (suggested width=800px. Be sure to enter the height in pixels when you upload it)

2. Photos, PhotosBlue, PhotosWhite

Example with photo replaced in template:

http://artellacafe.com/blogs/procrastination_station/archive/2007/06/20/975.aspx

Example with background and top image replaced:

http://artellacafe.com/blogs/bobbys_tech_tips/default.aspx

Features:

- Can change background to any image or color (which colors entire background solid)

- Can upload own image to top (suggested width=1500px; enter the height in pixels when you upload it)

A quirk: text color for headline can't be changed; it is always a beige color

Select “With Image” to keep top as is, or if you upload your own top image, then the text is indented. If you select “Without Image”, the headline text is left-justified

3.

Vanilla

http://artellacafe.com/blogs/nicis_art-shaped_world/default.aspx

http://artellacafe.com/blogs/ophelia_blooming/archive/2007/07/28/funeral-home.aspx

Can change background to any image or color (which appears on either side of the center)

Can upload own image to top (suggested width=760px; enter the height in pixels when you upload it)

Can change text colors
